Project

Field(s)	Folk dance and music in rural areas
Description	<p>Promote, value and foster European intangible heritage. Provide folkloric artists of a cultural basis to develop new repertoires based on them. In a first step, legends and oral traditions will be collected and artist will use this material to create new songs and dances to foster knowledge and circulation of European intangible heritage.</p> <p>One of the main points in the project is the professionalism and internationalization of folkloric element's and artists in rural areas, as well as to promote transnational circulation of folkloric artists fostering intercultural dialogs to share knowledges among different territories</p> <p>Foster cultural creativity working in rural areas and forests using their traditions and counting on the participation of their inhabitants.</p>

Audience development in rural areas through participating processes to promote inclusion and accessibility. In a first step the rural population will collect legends and oral traditions. In a second step, they will take part in the repertoires, for instance in the design of art elements, manufacturing clothes, or taking part of the performances

The repertoires worked in the frame of the project will be held in all the territories taking part into the project. We are also thinking in collaborators, festivals, to host the project as guest.

Partners searched

Countries

Countries with minor idioms and / or cultures and with a strong folkloric tradition, especially in dance and music. Territories in rural areas or linked to the forests and mountains in their traditions and / or way of life.

Taking into account that mostly of folkloric artists are not professional in north of Spain, we are looking for partners in territories where folkloric artists are professional or at least, well organized.

Profile

Dance and music folk associations, artists, schools or festivals interested in develop new repertoires and exchange their knowledge and traditions.

Other

Institutions that work in the fields of communication, marketing or any other aspect in the professionalization of artists.
