Field(s)	Music, Producing, Live venues, Festival
Description	Haldern Pop has already flushed many artists into our village of Haldern who are now much more successful. They pay with their music and the audience thanks with attention and the purchase of records after the concert. In 2010, the Guardian ranked the Haldern Pop Festival among the five most innovative festivals in Europe. The festival has been continuously sold out since 2002, before the artistic programme is announced. We offer our network as well as music venue be it as an artist residency or a way to record and perform live music. We are searching for additional partners across the EU which fits with our artistic program and vision.
