Aims and activities of the organisation	Kitte Ateliers is **an emerging gallery specializing in unique pieces and limited editions of art and design**. From the beginning we focused our project on the discovery and **support of young artists**, without any geographical restriction or exclusion of formats and disciplines, we mainly focus on the **art of design, the creation of spaces, sculptural interaction and the world of craftsmanship**.

The artists with whom we collaborate are of different nationalities and work with very diverse methods, although all of them are subject to an integrating idea in connection with the world of nature and the organic. We focus our exhibition proposal mainly on an artistic trend that has been gaining strength in recent years, functional art or artistic furniture, always under our personal vision and artworks of great visual strength that create unique environments. At the head of Kitte are David Puente and Leticia García, both highly creative people who join forces and diverse knowledge to manage this project. David has more than 25 years of experience as an interior designer and antique dealer, having previously owned two antique shops and a design showroom in Madrid. He has also carried out important interior design projects on a national level. Leticia has a degree in business administration and has worked as a cultural manager, event coordinator and fashion editor. The gallery has been operating online for two years, |

	with presence in two important international art sales platforms, 1stDibs and Artsy, with good results in terms of sales. We believe that this is the ideal moment to expand our gallery and give it a greater international impulse. We would like to open our own physical gallery where we can fully develop the project, in this way, as well as a point of sale, it would be a dynamic space in which to hold exhibitions. Also we believe it would be very positive to attend some international design fairs such as Collectible, Pad Paris, Venice Design Biennale. Having these three points of sale and interaction, (online gallery, physical space and exhibiting at fairs) the results obtained would be much greater. The feedback so far from the public is quite good and after two years we feel more confident and mature to expand our project. Our aesthetic is something that we have been perfecting throughout this journey and we are always in continuous exploration to offer new and exclusive proposals.
