Aims and activities of the organisation	Democratizing the use of data and AI for social good; Enhancing data & analytics solutions in arts and culture; Creating new sustainable practices & models for the cultural sector; Empowering local artists and organisations; Creative Data is a consultancy firm that enables sustainable data and AI strategies through open architectures. One of our main activities is to encourage new sustainable and innovative practices among the creative and cultural sectors. Additionally, we develop, participate and provide full project lifecycle evaluation and support for EU-funded projects. Our core mission is to democratize data and highlight its societal and environmental significance. We have developed different project proposals, acted as external evaluators and guided projects which empower the sustainable use of data & analytics in different sectors such as culture, arts, sports and health. Our team has more than 10 years of expertise in culture management, music, arts, data&analytics, AI, Creative Europe, Erasmus+ or Horizon Europe.
Role of the organisation in the project	Project partner / leader
Previous EU grants received	*During the last year we have participated as External Evaluators; we are a start-up, but our team has participated in different EU-cofounded projects.*

Proposed Creative Europe project – to which project are you looking for partners?

Sector or field	Arts and technology, community art, data analytics, AI, digital innovation
Description or summary of the proposed project	Using the power of open data architectures to enable art professionals and organisations based in small cities and rural areas to measure and track the impact of their work on society

	and the planet. We aim to foster cross-sectoral collaboration and work closely with local organisations so that we can understand their needs, empower and involve their communities, and develop new sustainable development models for the cultural sector. Our project aims to contribute to the innovation of the sector, as well as to address sustainability and digital transition.
