Aims and activities of the organisation	<p>Asterlize APS was founded in 2018 in Turin as a theatre company dedicated to the development of artistic productions in the field of performing arts and cross-media content. The organisation's core aim is the recovery and valorisation of memory. It works with narratives rooted in personal and collective stories, memories, letters and diaries, treating themes of strong social impact such as emancipation, women's rights, interculturality, and the recovery of the past through a re-reading of the present. Asterlize believes that <b>preserving</b> and <b>reinterpreting</b> memory is both a cultural and political act, capable of sparking reflection on the present and opening spaces for shared dialogue. Its productions address themes deeply rooted in contemporary life: gender equality, the struggle for rights, migration, and the many forms of human experience. In terms of activities, Asterlize develops productions spanning traditional theatre forms, performances, shows, and workshops, as well as contemporary languages, including <b>cross-media content</b>, Virtual Reality experiences, and interactive digital installations. Through an approach that combines live theatre tradition with technological innovation, Asterlize reaches a diverse audience, particularly the under-35 demographic, giving individual and collective memories a new contemporary voice.</p> <p>#creativetransformation #memory #storytelling #theatre</p>
